

# Welcome

---

## Staff

- All staff will continue to wear medical-grade masks.
- We will continue frequent cleaning and disinfecting of common touchpoints and eyeglass frames.

---

## Patrons

- Masking within our office is still recommended, although no longer mandatory. If you do not have a mask and wish to wear one, the office would be happy to provide one for you.
- COVID screening will continue for anyone entering the office. This includes a questionnaire about possible symptoms and exposure. We ask that if you are not feeling well, you reschedule your visit to a later date.
- Physical distancing within our office will continue, including the use of plexiglass barriers where appropriate.
- Appointments are recommended for all visits to the office, including glasses pick-ups and adjustments. This allows us to provide you the best experience possible, including prompt and efficient service.

---

**Thank you for helping us keep our community safe!**
